

# Bass Coast Landcare Network Annual General Meeting 2025

## You are invited to Bass Coast Landcare Network's Annual General Meeting.

This year the AGM will be held at Ken and Janice Connor's Property at Screw Creek near Inverloch on May the 3rd at 11am.

We are planning to have a short AGM followed by a BBQ lunch down on a beautiful section of the creek which has a combination of remnant vegetation and revegetation. Please BYO camp chair.

Our speaker for the day will be Gio Fitzpatrick. Gio is an award-winning naturalist and ecological designer with a passion for ecological restoration in multi-use spaces. He believes that intensely modified landscapes and small, urban spaces can easily be made hospitable to a surprising range of native wildlife through careful goal-setting and selection of methods. His main project currently, is the development of the Yalukit Willam Nature Reserve on the former Elsternwick Golf Course.
