

# Assurance for Arborists and their Clients

The Arborists for Forests Initiative aims to provide assurance for Arborists and for clients, by creating a more sustainable world for future generations.

- For every tree removed, between 2-10 indigenous plants will be planted in Bass Coast
- Connect with Bass Coast Landcare Network and partner with a Not-for-profit
- Support native plants and animals
- Help tackle local environmental issues and increase carbon capture

An opportunity to make a positive contribution to the local environment and community, whilst improving environmental sustainability through offsetting the removal of trees.

***“A pivotal progression in the sustainability of Arboriculture!”***  
*Max, Bass Coast Tree Care*

To get involved or for more information on the benefits to your business, please contact Jye Andersen, Natural Resource Management Project Coordinator at either, [jye.andersen@basscoastlandcare.org.au](mailto:jye.andersen@basscoastlandcare.org.au) or by calling 0407 529 706
