

Creating Climate Smart Communities.

Introduction to Bioferts- Field Day.

Join us for this exciting Bioferts field day at the Grantville property of John Carney. John joined the Bass Valley Landcare Group in 2021 and quickly became actively involved in landcare projects. Since joining the Bioferts mentoring program in 2024 John has commenced making his own Bioferts. He is also actively encouraging others in the Bass Coast farming community to look at Bioferts as a viable option for their farms.

Joining us on the day will be Bioferts expert, Daniel Hodges from Soil, Water and Plants who will present on 'Introduction to Bioferts'.

We hope you can make it along to this exciting field day opportunity.
