## Empowering people to adapt

## Opportunities for Carbon on Farms - Webinar I

### How to increase carbon on farms and why?

Are you interested in learning more about Opportunities for Carbon on farms? Do you want to know how increase carbon on your farm and why you should do this?

Join us for this exciting online webinar featuring soil scientist and regenerative agriculture expert Declan McDonald who will explain how you can use regenerative agriculture practices to increase your tree and soil carbon on farm. Declan will also speak about developing an integrated farm-based approach, what are the benefits, taking your first practical steps and where to find further help and advice. This is an exciting session not to be missed. We look forward to seeing you over zoom.
