

Diversification and Innovation Discussion Group Farm Visit.

Clinton Tepper is a forester and farmer who operates Camaray Farm in Buln Buln. Over 5 years ago Clinton set up a demonstration plot with and planted 3 species of trees at wide spacings for high value timber, crops and livestock. The trial has been successful and is now best known as the flagship for multi storey farming (MSF). Clinton has established another MSF site at an operational scale of 7ha using lucerne and 25 tree species of tree. MSF will challenge your thinking regarding the integration of trees with pasture and crop.

Come along to this exciting day and learn more about Clintons Multi Story farming approach, diversifying farm income and improving farm resilience.
