

PROMOTING AND DEMONSTRATING FIRE WISE PLANNING AND IMPLEMENTATION IN THE BASS COAST.

Expression of interest form.

The Bass Coast Landcare Network is excited to announce the commencement of an exciting new project, 'Promoting and demonstrating Fire Wise planning and implementation in the Bass Coast'.

This project will engage community members and local groups from across the Bass Coast Landcare Network area. It aims to improve, share, test and demonstrate our understanding of how numerous species of indigenous plants, can be retained or planted in strategic locations around the built environment, to better protect our assets and also enhance our local biodiversity.

If you would like to become directly involved in this project as a planning case study site or an on-ground demonstration site please fill out this EOI form.

Name.

Property address.

Email address.

Phone.

Landcare Group area.

Are you a member of your local landcare group?

Are in interested in being a property planning case study site or an on-ground demonstration site? Please specify.

To submit your EOI or if you would like further information on this project please email joel.geoghegan@basscoastlandcare.org.au

Groups in the Bass Coast Landcare Network are only eligible to apply.
