Join us for an exciting and informative Firewood on Farms Field Day at the beautiful Kernot property of Joby and Camilla Graves.

Clinton Tepper, expert forest scientist from TreeStorey will share valuable insights on:

- Planning and establishing firewood tree plots
- Choosing the right species for the Bass Coast region
- Managing your trees to get the best return on your investment

Hear from staff at the Department of Energy, Environment and Climate Action, who will outline programs and support available to help bring farm-based projects to life.

This is a fantastic opportunity to learn from the experts, connect with others, and explore ways to make your farm more productive and sustainable.

Event Details

Light morning tea provided. BYO lunch, mug, drink bottle and chair.
