

Regenerative LAND MANAGEMENT

with **Stefanie Hildmann**

How can we:

- Break the **weed spray** cycle?
- Keep **cattle and soil** in a sustainable relationship?
- Monitor **landscape function**?

Stefanie works as an educator about all things soil and is known for her no-nonsense approach to soil health.

She builds on her European family history, and the echoes of that past wisdom and merges it with modern thought and science. Her book *Radical Soil Care* provides foundational principles for soil health and with that knowledge, a range of solutions and tools become evident. Stefanie has bred Black Angus cattle in South Gippsland and, in a warm and entertaining way, she will challenge current traditions of land management from those years of experience and learning.

**RADICAL
SOIL CARE**
A NO-NONSENSE
GUIDE TO SOIL
HEALTH
