

Farmers Digging Deeper project Field Day. 'Establishing successful multi species pasture crops in Bass Coast- How and why'.

The Bass Coast Landcare Network through the Farmers Digging Deeper project are hosting this exciting field day focusing on 'Establishing successful multi species pasture crops in Bass Coast- How and why'.

Featuring expert guest speaker, Jade Killoran from Healthy Farming Systems, this field day will include:

- an overview of the benefits of incorporating multi species pasture crops into your farming system
- an analysis of why Bass Coast farming enterprises should consider multi species pasture cropping
- an overview of the dos and don'ts when integrating multi species pasture crops into your farming system
- an in depth look at species mixes suitable for Bass Coast landscapes
- a farm walk to a local paddock that was sowed with a multi species pasture cropping mix

If you're interested in multi species pasture cropping, then this field day is not to be missed. We look forward to seeing you at this exciting event.

Event details.
