

Multi Story Farming with Clinton Tepper over Zoom.

Clinton Tepper is a forester and farmer who operates Camaray Farm in Buln Buln. Over 5 years ago Clinton set up a demonstration plot with and planted 3 species of trees at wide spacings integrating high value timber, crops and livestock. The trial has been successful and is now best known as the flagship for multi storey farming (MSF). Clinton has established another MSF site on his farm planting 25 tree species amongst Lucerne sown in 2016. MSF will challenge your thinking regarding the integration of trees with pasture and crop. You are invited to attend this exciting Zoom event where Clinton will talk about his multi story farming approach.

To get the most out of this experience we suggest you watch these two videos featuring Clinton Tepper and his multi story farming approach prior to the Zoom event.
