

Diversification and Innovation Discussion Group Farm Visit.

Welcome to Peninsula Avocados. Owner, Steve Marshall has been growing avocados on the Mornington Peninsula for over 25 years and operates 2 companies that grow, harvests, processes, packages and sells avocados. The majority of the produce is sold into the Epping whole fruit market. The complexity of growing avocados on the Mornington Peninsula requires different management strategies to other areas of Australia. A changing climate has also delivered challenges such as lack of water, salinity and extreme heat days. Come along to this exciting day and learn more about Avocado growing in Southern Victoria.
