

Best of the Powlett – From the top to the bottom – a Catchment Tour

Join Paul Speirs and Dave Bateman on Friday 19th of May to tour some of the best Landcare projects from the top to the bottom of the Powlett catchment. Starting early we will visit 11 sites including a cool temperate rainforest gully on the property of Paul Speirs (pictured), Prom Country Cheese and the Mouth of the Powlett River. This tour aims to bring together people from our own and neighboring regions to look at some of the best examples of on ground Landcare works to inspire others to action. It is hoped that this will be the start of many similar days in other regions to share knowledge and experience with each other.

What to Bring

Sturdy Footwear and a rain coat
