

Bass Coast Landcare Network Regenerative Grazing Management Farm Walk.

You are invited to an exciting farm walk at the Moyarra property of Burke and Bronwyn Brandon, Moyarra Pastoral. The farm is managed as an organically certified sheep and beef farming enterprise.

Burke and Bronwyn have been implementing regenerative agriculture management practices for many years, with a particular focus on high density grazing and pasture management with low inputs. Join a discussion around simple and practical ways to manage fencing, water, balancing pasture supply and demand while maintaining soil quality and nutrient levels, benefiting both animal health and the farm business.

Declan McDonald from ReGen Soils will also be joining us on the day to contribute his knowledge and expertise.

This will be a fantastic interactive farm walk and we hope to see you all on the day.

Biosecurity measures will be in place on the day. Please ensure your vehicles and footwear are clean prior to this farm walk.

Event Details.
