

‘Transitioning to a regenerative agriculture system in the Southern Gippsland grazing landscape’.

Are you interested in transitioning to a ‘regenerative agriculture’ system on your farm and want to take the first steps? These two workshops are designed to help you with your first steps along the regenerative agriculture journey. Regenerative agriculture expert Declan McDonald will be facilitating the two workshops:

- Session 1- ‘Introduction to regenerative agriculture in the Southern Gippsland grazing landscape’.
- Session 2- ‘Transitioning to a regenerative agriculture system on your farm’.

Event Details

Date:	Session 1- Thursday 17 th September 2020. Session 2- Thursday 1 st October 2020.
Time:	10.00 am to 12.00 pm.
Zoom Link:	Zoom link will be forwarded through upon confirmation of registration.

To ensure enough time is available for you to undertake event preparation activities registrations are essential by Friday 11th September 2020. Participants who own property in the Westernport catchment and can commit to attending both sessions will be given priority.

To register please email Joel Geoghegan on joel.geoghegan@basscoastlandcare.org.au or phone on 0409 705 652 for further information.
