

CREATING A REGENERATIVE

FARM BUSINESS *with Mark Gardner*

If your farm is located within the watershed of Port Phillip or Westernport Bay and you are considering transitioning to a regenerative agriculture farming system, then this course is for you!

This 3-week course aims to help you develop a profitable and family-friendly regenerative farm business. The course will help you understand the motivations behind your decisions, whilst helping you transition to a regenerative focused business suited to your landscape, supporting wellbeing, natural systems and profit.

Mark Gardner is a Regenerative Agriculture advisor with Vanguard Business Services. He has extensive agricultural experience specialising in holistic farm & land management with family businesses to improve profitability and land health.

Session 1 | Thurs Apr 22nd - The mindset of a Regenerative Business – how this influences profit and decision making

Session 2 | Thurs Apr 29th - Designing your own Regenerative Business - Income, costs, profit, and risk. The importance of family wellbeing and developing your strategy

Session 3 | Thurs May 6th - Looking ahead – Measuring what matters and exploring new income streams

Each session will be run online via Zoom from 10.30am to-12.30pm

Key points:

Participants are expected to attend all 3 sessions.

Program targeted to commercial farmers located in the watershed of Port Phillip or Westernport Bay.
