Regenerative Grazing Management

in the Southern Gippsland Landscape

Taught by Alan Savory, **Graeme Hand** has 25 years of experience with planned grazing management (including land and soil health monitoring, enterprise design and financial planning and monitoring).

Come and hear from Graeme about:

- Implementing a regenerative grazing management approach—why and how
- Animal and plant-based monitoring methods
- Setting up your own safe-to-fail practice area
- A chance to develop your own grazing plan

Following each morning session we'll visit a local farm and see a planned grazing management trial.

Two sessions are available, both from 10am-2.30pm:

Steep Country grazing management
Thursday 27th May
Outtrim Hall & Jumbunna farm walk delivered by South Gippsland Landcare Network
Eventbrite link:
steepcountrygrazing.eventbrite.com.au

Flat country grazing management
Friday 28th May
Archies Creek delivered by Bass Coast Landcare Network
Eventbrite link:
flatcountrygrazing.eventbrite.com.au

Morning tea and lunch provided.
Registrations are essential by Monday 24th May due to COVID-19 requirements.
